

Tuesday, September 17th

Sold 1393 head of all cattle types. The weigh-up market was down \$5.00 to \$7.00. Based on the time of year, we should expect to see this with weigh-up prices, and continue to trend steady to lower. Much like most auction barns, still waiting to see a true test of bawling or weaned calves. A large majority of stocker feeder cattle offered ranged from 600-850# and sold mostly steady. Buyer's demand would fluctuate throughout the sale depending their load availability, over all though, still showed good demand for all weight classes of feeder cattle. Had active bidding in the stands and online.
